The screen should look something like this.

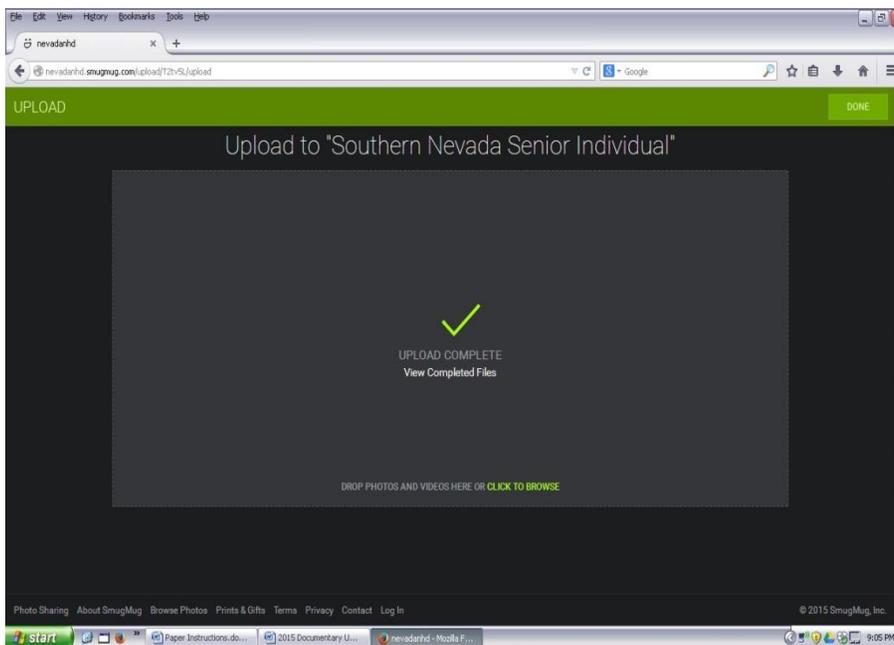

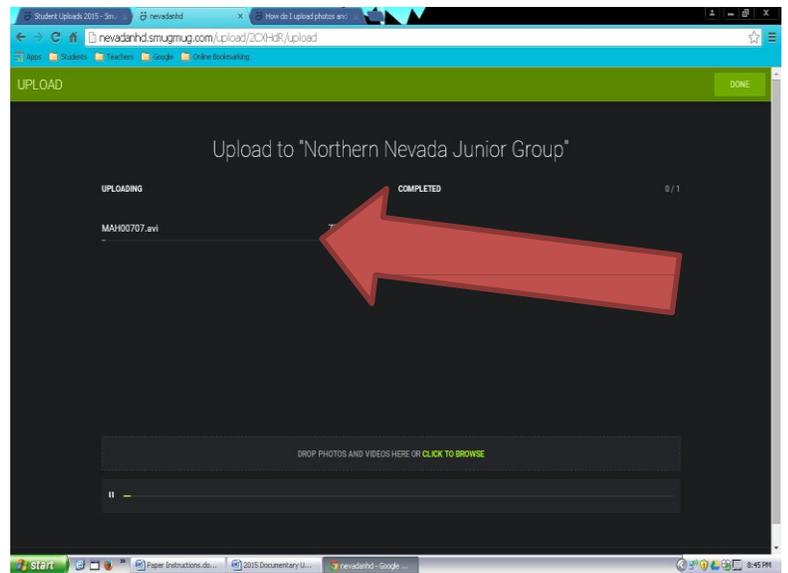

Either drag your documentary into the box as indicated or select the "Click to Browse" link to find your documentary file, then drag it over.

If it is the right file type, a progress bar should indicate that your documentary is uploading.

Depending on internet connection, internet speed, and file size, this might take some time, be patient. You can monitor progress as you see it below.

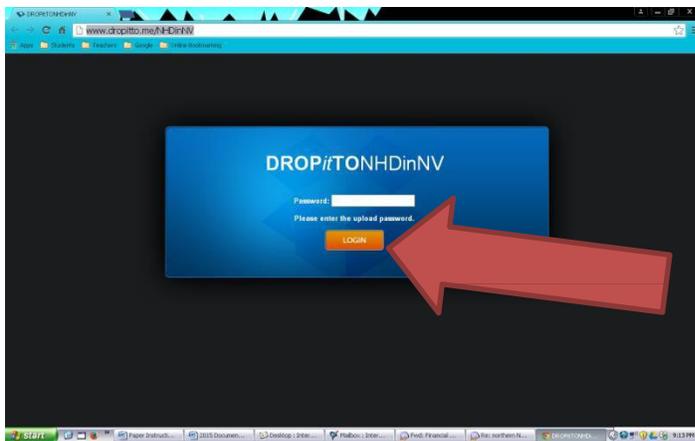

Once the file is completely uploaded, the following screen will pop up – and you have completed the upload of your documentary.

Now you must upload your process paper and annotated bibliography.

BEFORE you can upload, you must change the file name of your process paper and annotated bibliography. Your files will follow this naming convention *PPSouthernProjectTitle.dox* or *ABSouthernProjectTitle.dox*

- For example, a process paper would be named
PPSouthernTheGreatCompromiser.dox
- A annotated bibliography would be named
ABSouthernTheGreatCompromiser.dox
- If the full title of your project will not completely fit, type as much of it as possible.
